Aaaah, do not eat me. Then I got eaten by a human and spit out. That felt like I died. That hurt so bad. I saw my friend Houston.

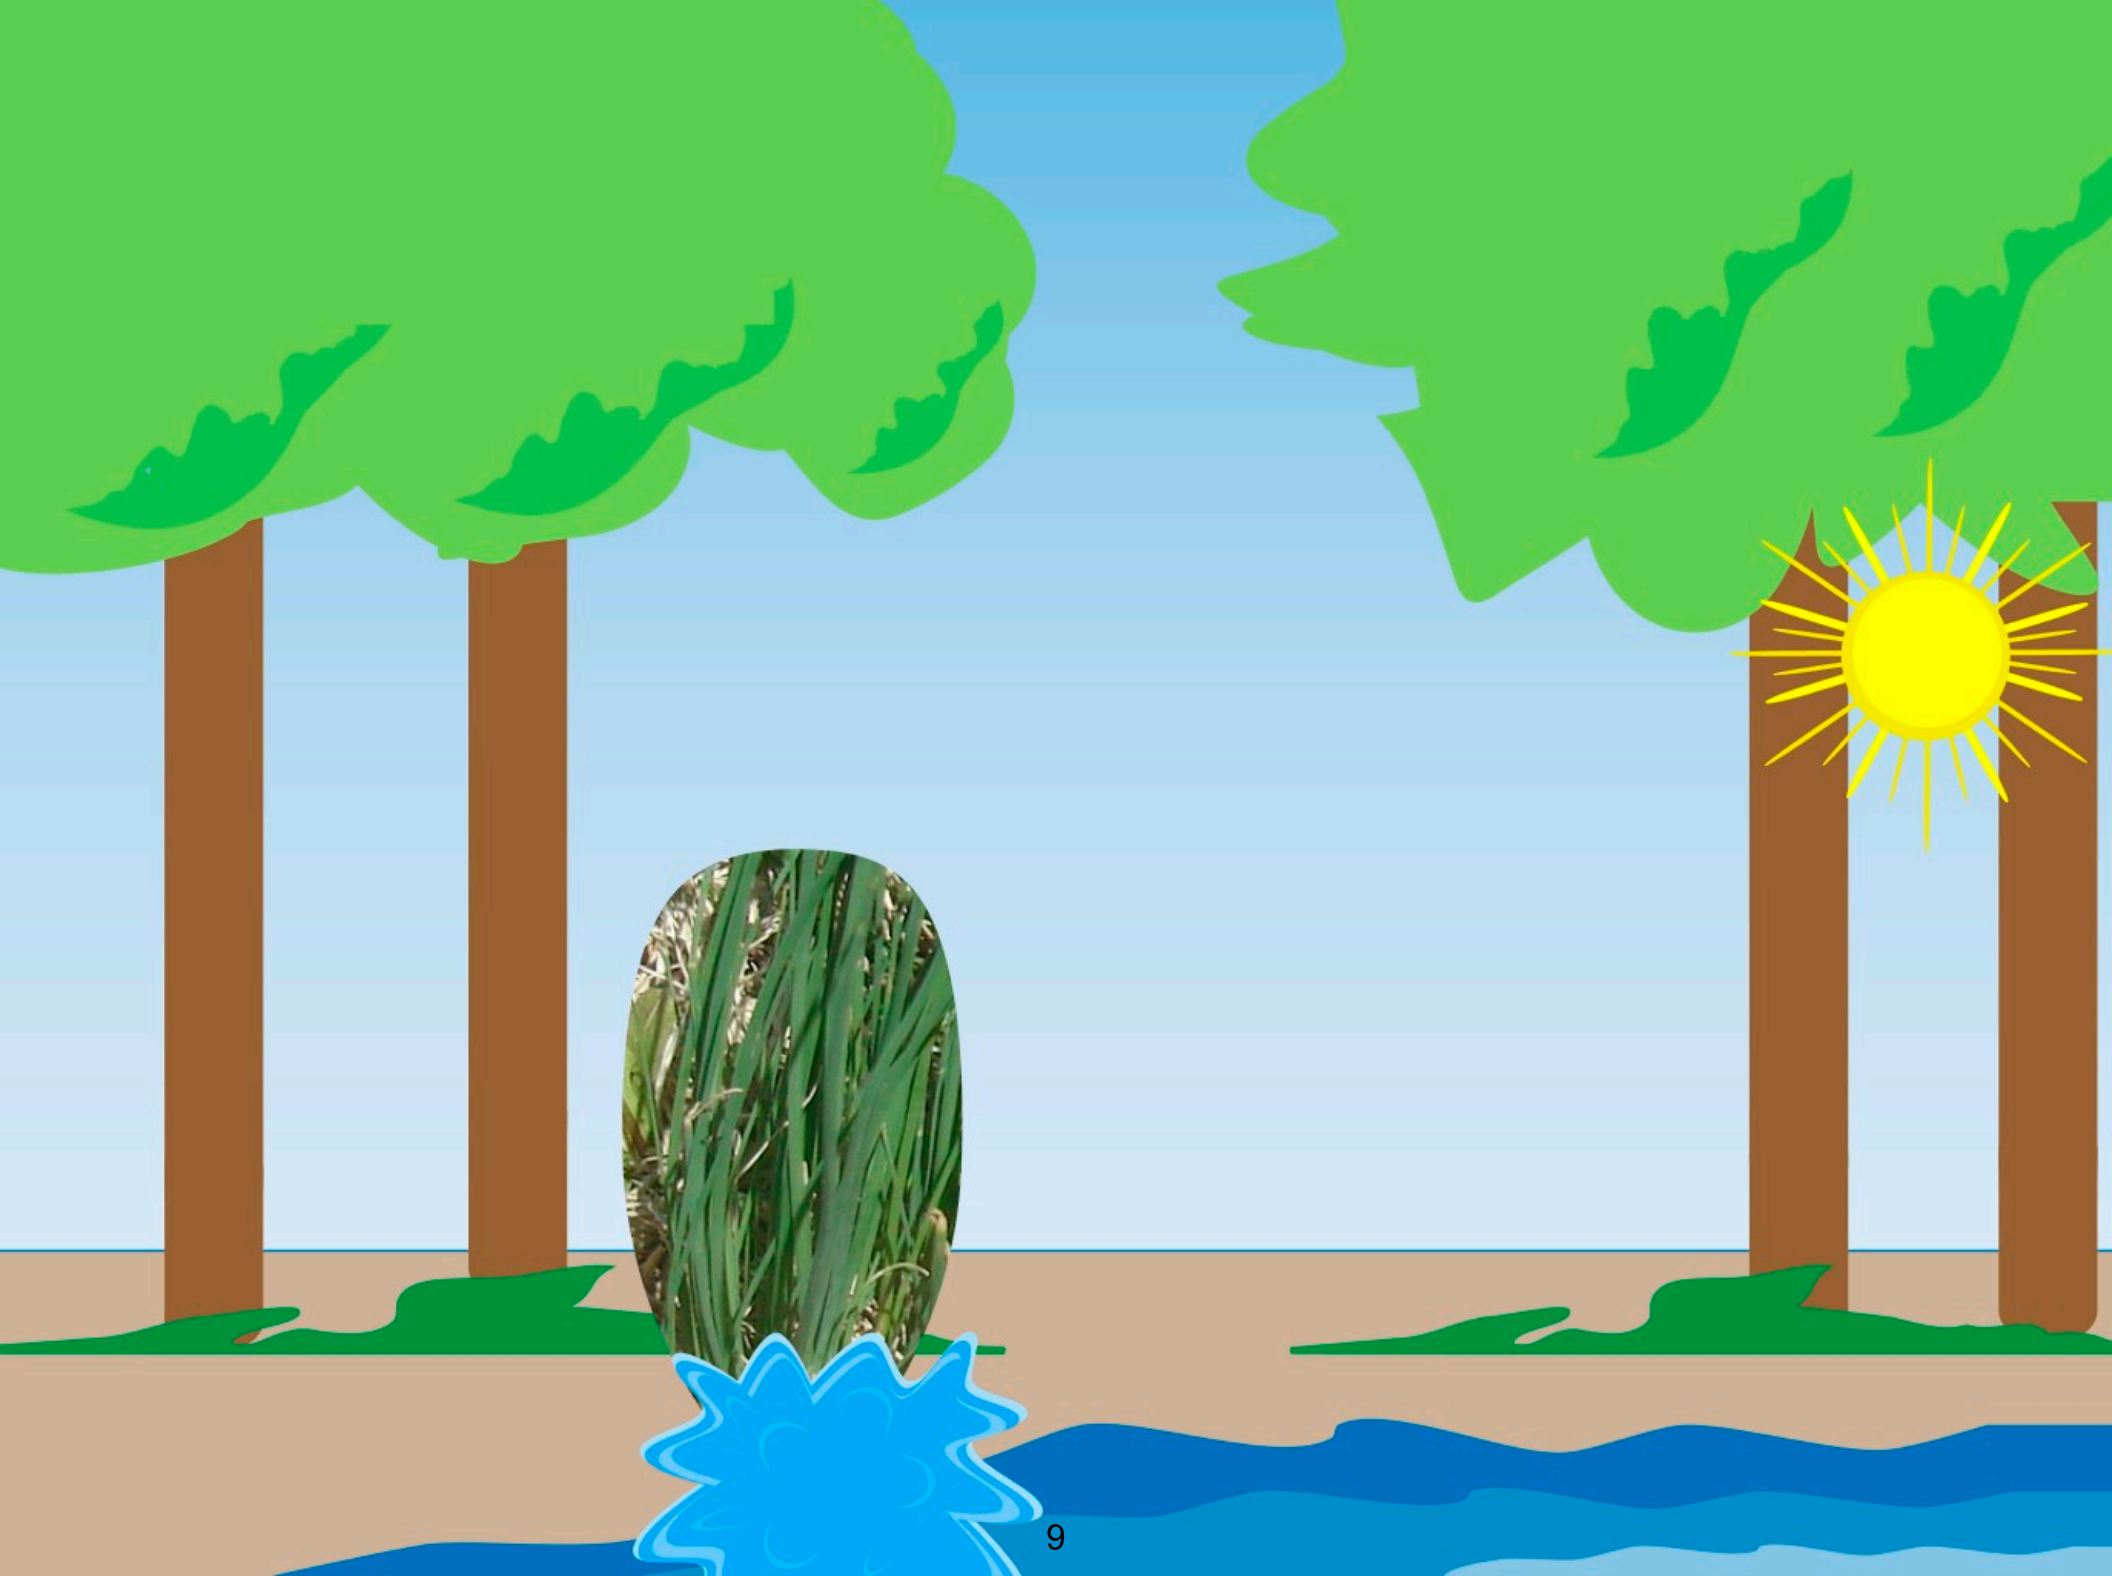

I felt a rain drop and said, "I can't get on my swim suit now. Then I got a sun tan.

I felt a growing pain. When I was a seed I got a lot of water. I said, "I just got roots. The roots keep me in place."

I got a big stem. I said, "It felt good to have a lot of water and sun. But then I got a good sun tan."

I started to grow and grow. I got some leaves. A leaf takes water from the stem.

The life I have went through has been a small seed and then a big seed, roots, stem, and then a leaf.

I was so happy. I said, "I feel a bad pain." I looked and saw I was growing a flower. My flower seeds started to fall.

My son started the same life cycle. I felt really happy because I knew how I would step him through his life. My son's name is Blake. Blake will end up big and strong with me.
